

Get Ready for a Successful Job-hunting in Japan 2020

for international students:

Changes due to COVID -19 &
How to prepare

@Zoom Online Room

Sat. the 28th November

16:00 - 18:00

Co-hosted by
The Consortium of Universities in Hyogo
Kansai Economic Federation
MEXT Scholars Association

COVID-19 has changed job hunting in Japan - maybe permanently. Students graduating in 2021 and even 2022 are expected to be heavily affected with smaller hiring quotas. But even within this, there are some opportunities.

Online hiring has opened up job-hunting opportunities to those outside Tokyo. Companies are also fundamentally changing the way they look at their job hunting.
